

Introducing Our New 8x8 +BB Semi Modular Steerable Platform Trailer

- Supports up to 210 tonnes at 5kph or approximately 140T capacity at 80kph with the inclusion of the Booster Bogie.
- Perfect for transporting oversized, irregular, or extremely heavy loads.
- Equipped with steerable axles, allowing a maximum steering angle of up to 62 degrees for superior maneuverability in tight spaces.
- Running height of just 1080mm, allowing for better load clearance and easier loading of tall or wide cargo.

Up to 62 degree maximum steering angle
Running height of 1080mm and suspension axle travel of 600mm
30t per line at 5kph
World first EBS & ABS on a widening platform
Spineless chassis for low deflection and high point-loading
